AUGUST 2011 AWhA PRESIDENT'S REPORT

The new breeding season has come around quickly this year- the days are getting longer, the grass is growing, the horses are starting to shed their winter woollies and fatten up- time to start thinking about those sacrifice paddocks needed to lock up all those prone to obesity-big ponies and small- you even need to watch your heavily pregnant warmblood mares as they seem to do well "on an oily rag"too!

We have our AGM coming up in October and I ask members to come as in the past it has only been our committee in attendance. It does not take a great effort to attend and the meals at our venue are excellent. Maybe put off your dialysis, visiting your grandmother, working with kids on the street, lock the kids in their bedrooms , skip that night school class ,it is only one night and we want TO SEE YOU THERE.

Also anyone interested in becoming a committee member and being more involved in our association please let us know as we have lots of fun and people just tend to love being in my company.

Good luck with the upcoming foaling and breeding season.

Regards Bruce Williams

Secretary's Report

Just a reminder that our membership year is from the 1st of September 2011 to the 31st August 2012, so it is time to start thinking about getting those renewals in (that include us committee).

Current Membership List 10/11

Welcome to our New Members and thank you to our renewing members. If your name hasn't appeared on this list and you have recently renewed don't panic- it might be still in the system (or come in after I have checked the website!).

Registrar's news.

Hey everyone, I have spoken to a couple of our classifiers who have told me that they are willing for me to drag them around the countryside! So in the not too distant future I will be contacting people who have paid for mare classifications to let you know when we will be on the road. Depending on locations we may have to do this in sections. This will be a trial to see how effective we can be at cleaning up outstanding and new classifications across Victoria and hopefully into Tasmania. As soon as is feasibly possible I will put a list of destinations and dates on the website- if you fall into our path or nearby it would be a great opportunity to get your mares done at the time.

I have been asked to remind you that your mares will probably move (score) better as younger horses, rather than waiting until you have retired them from competition or they are heavily in foal! Eligible mares can be classified after they turn 3. Just a thought.

It would also be great for planning purposes (colt classifications are quite involved) if anyone who has a colt they might be interested in presenting next year could let me know. The Gala Day/Dressage Day is going to be a major event in itself next year so we may not be able to do multiple horses on that evening, it would be good if we had an initial indication of interest so we can look for another venue and time if necessary.

Tack Talk

This column is to provide some information on what some members have been up to with their Warmblood Horses or just up to in general. If you have a contribution please send an email to awhavic_secre00@yahoo.com.au as we would like to let everyone know what we are doing with our horses. We are interested in any news our members have to share.

Just to let you know Bruce and Debbie Williams' newest German arrivals have commenced their residence at Hollingrove Stud. Apparently they are looking very sleek in their summer coats- hope they packed some winter woollies! Ami and Dior (left)

Kim Anning, long time committee and AWA member, has taken on a new venture with her new role as owner of "The Saddlery Shop" 648 Warburton Hwy, Seville. The shop will continue to cater for all equestrian pursuits with a wide range of human and horse clothing, saddlery, vet products and feed supplements as well as rug and saddlery repair and blade sharpening services. The bad news for us is that Kim feels she will be too busy to continue her role of treasurer with the AWA. Despite this, we wish her every success.

Lilydale Ag Show has hit problems with their venue and look to be unlikely to present a horse programme in 2011. They are looking for alternative venues and some more volunteers to join their Horses Subcommittee to ensure they can have a solution for 2012. If you would like to assist you could contact Georgia on gla2775@yahoo.com.au.

Speaking of Shows!

The AWAH Vic is quite open to sponsoring Warmblood classes at Agricultural shows if attendances demonstrate that that is what you would like to see.

Are you involved in organising horse classes at Agricultural shows?

Would you like to run some Warmblood Classes?

Contact us about the possibility of sponsorship.

We **are** sponsoring some Warmblood classes in a couple of upcoming shows.

CHANGES IN VICTORIAN Code of Practise FOR THE WELFARE OF HORSES RE BRANDING

The AHIC has highlighted on their website that there is about to be a revision of the Code of Practice for the Welfare of Horses, which is under the Victorian Prevention of Cruelty to Animals Act 1986. The final draft has been reached and will soon be presented to the Minister before proceeding to Parliament.

Horses must not be branded using corrosive chemicals or hot irons under the minimum standards to avoid cruelty to animals. It has not passed yet, but those currently hot branding may wish to look at other methods.

The AWA no longer requires branding as a form of artificial identification, microchips are now accepted and we recommend that you microchip your foals prior to registration.

16 IDENTIFICATION Minimum Standards

S16.1 Horses must not be branded using corrosive chemicals or hot irons.

S16.2 Microchips must be inserted by a registered veterinary practitioner in accordance with the Domestic Animals Act 1994.

Guidelines

G16.1 Microchipping with animal owner details recorded on a Victorian Government licensed microchip registry, freeze-branding, DNA profiling and blood type profiling are acceptable methods of permanent identification.

G16.2 Hoof fire branding is acceptable as a short-term procedure.

G16.3 Horses should be permanently identified as early as management practices will allow, by persons experienced and proficient in performing the procedure.

G16.4 Where horses are kept at unoccupied premises, the contact details of the person in charge of the horse should be clearly displayed.

G 16.5 Horse owners should regularly check that their contact details are correctly recorded with the licensed animal microchip identification registry. This information will be available two days after the horse has been microchipped.

G 16.6 In accordance with the Domestic Animals Act 1994, microchips must be inserted into the nuchal ligament halfway along the left hand side of the horse's neck.

Performance Medallion Time Again

It's soooooo easy, go on... you'll like the medallion, I get it engraved and everything! Just record your show, eventing, dressage etc results to a total of 30 points on the form July 1st 2010 to 30th June 2011, and send it in. Form further on in the newsletter!

A. B. N 48 007 087 470

Birth date: 14.05.07

Height: mature approximately 16.2hh

Licensed in Mecklenburg

Stud fee-\$1850 LFG inc GST to a very limited book of mares

The new heartbreaker of our stables is Lord Larmarque (**Locksley II / Veritas AA / Grand Ferdinand II**), a beautiful chestnut 3 year old Hanoverian bred stallion. Lord Larmarque has a cutting edge pedigree by the exciting Celle stallion Locksley II, his pedigree contains a high percentage of blood which will help bring refinement to any warmblood breeding program.

The same cross has resulted in top priced auction horses sold recently in Verden. Lord Larmarque was the winner of numerous championship foal titles throughout Germany. In 2009 he went on to be approved in Mecklenburg, impressing the committee with his gorgeous type and outstanding basic gaits.

Under saddle Lord Larmarque is charming audiences with his unbelievable rideability, striking trot, expansive walk and a powerful canter. We are extremely pleased with this young stallions quality and anticipate a very successful career in sport and breeding.

Legend of Loxley (imp)

Legend of Loxley has it all...
 Stunning looks, outstanding temperament and expressive paces.
 He gives you that "dream feeling" to ride.

**2007 Black Licensed NRW Stallion
 AWAH, 170cm**

Legend of Loxley is a modern type, with stunning looks and dynamically engaged movement that flows through his whole body. His genetic input is assured with Premium Stallions and mares throughout his pedigree.

Legend of Loxley has an amazing temperament, is a dream to handle and is progressing fantastically in his training despite being just 4 years old. At his first YH competition in 2011, he was awarded the total average score of 8.1.

Legend of Loxley is being campaigned by Hof Kasselmann's trained rider Sarah Honeywell. Legend of Loxley's first foals were born in February this year and are images of their father - all dark, with expressive paces and fantastic temperaments.
