The AWA QLD Branch is raffling one dose of frozen semen valued at \$628.00 AUD. One hundred tickets are for sale at \$10 per ticket!

Saturday the 16th of June, 2012, will see the AWA QLD Branch hold their 2012 AWA QLD Branch and International Horse Breeders Gala Day Show at Gatton Showgrounds. The AWA QLD Branch would like to offer special thanks to their major sponsor **International Horse Breeders Pty Ltd** for their continued support of the AWA QLD Branch.

**For details and conditions of the AWA QLD Branch raffle,
please read page 2 of this catalogue!**

International Horse Breeders Pty Ltd

Serving the equine industry through frozen AI from the world's best!

Established since 1989, International Horse Breeders offers to all serious horse breeders many years of experience in the trade of frozen artificial insemination (AI). They bring to Australian breeders the choice of the best stallions that the world has to offer. Their experience, technical skills and success now speaks for itself and their average conception rate of two inseminations per pregnancy is the envy of the international market.

IHB began with a specific vision back in the 1980's. The idea was to introduce the genes of the world's top ranking stallions into the breeding stock here in Australia through frozen AI. At the time, AI was a recently developed technology but during the past fifteen years, enormous progress has been made. Twenty five years ago, IHB were excited about being pioneers in the industry; they are now proud to be able to boast the best conception rates in the world using frozen AI and that their results exceed any other method of breeding.

The ambition of most serious breeders is to produce a top performer. IHB can turn that dream into reality. They have successfully made dreams come true for horse breeders all over this country for many years. We invite you to contact IHB to discuss any aspect of your breeding programme for the 2012/2013 breeding season. From your choice of stallion to any other concern you may have, IHB are there to help you achieve the best.

Breed your best to the world's best!

*It is perhaps a truism that most successful endeavours begin with a dream.
Followed by dedication, perseverance and invariably, a great deal of hard work,
the dream becomes a reality.*

IHB

TERMS AND CONDITIONS

1. The provision of the frozen equine semen under this contract ("the Semen") is conditional upon the receipt by International Horse Breeders Pty Limited ("IHB") of a signed Veterinarian's Agreement, in a form approved by IHB, from the veterinarian ("the Veterinarian") that you wish to engage to perform the actual inseminations.
2. You must advise IHB of any other veterinarian that you wish to engage in addition to or in substitution for the Veterinarian and IHB must receive a signed Veterinarian's Agreement, in a form approved by IHB, from any such veterinarian, before that veterinarian performs any inseminations using the Semen.
3. The Semen is provided for the purpose of achieving such number of successful pregnancies as is equal to the number of inseminations purchased, through insemination in the mares notified to us in writing or verbally by you from time to time.
4. If you have achieved the permitted number of successful pregnancies, using the Semen, and you wish to retain and use any remaining Semen for the purpose of attempting additional pregnancies, you must first enter into a further contract with IHB pursuant to which you will be required to pay for each additional insemination.
5. If you have achieved the permitted number of successful pregnancies, using the Semen, and you do not wish to retain and use any of the remaining Semen for the purpose of attempting additional pregnancies as per clause 4, you must arrange to have the remaining Semen returned to IHB.
6. IHB will provide Service Certificates for births that have been the result of the use of the Semen but only where the Semen has been used in accordance with these Terms and Conditions.
7. If you wish to sell any of the purchased inseminations, IHB must be contacted first and provided with a written statement of who is purchasing the semen. The purchaser must agree to purchase the semen under the same Terms and Conditions under which the semen was originally bought. They will provide IHB with a statement of intention to buy the inseminations from the original purchaser and IHB will provide a copy of the Terms and Conditions which the purchaser will be required to sign and return. The purchaser will also provide IHB with the details of the vet to do the AI work.
8. Client agrees to permit IHB to obtain information concerning AI program from vet.
