Signature: _____	_____ _____ _____

Artificial Insemination (AI) & Mare Identification Certificate

The diagrams and written description must agree and must be sufficiently detailed to ensure the positive identification of the animal in the future. White markings must be shown in red. If there are no markings, this fact must be stated. All head and neck whorls should be marked (X). Other whorls should be similarly recorded in grey and in animals lacking sufficient other distinguishing marks. Acquired marks and other distinguishing marks e.g. prophet's thumb mark, walleye etc should always be noted. If microchip implanted please mark location with an arrow.

DESCRIPTION OF MARE

Name: _____
